COMPACT SPOT LIGHT

Compact spot light designed for easy threading & adjusting looper timing and easy installation!

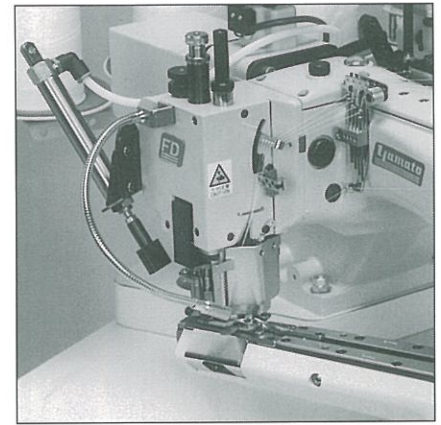

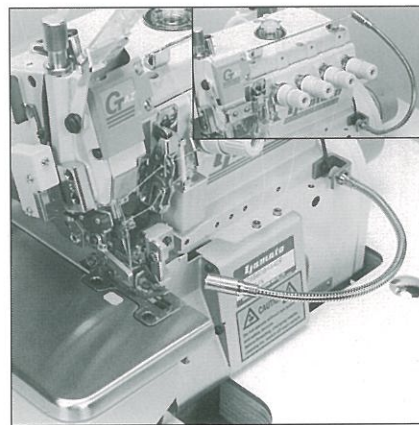

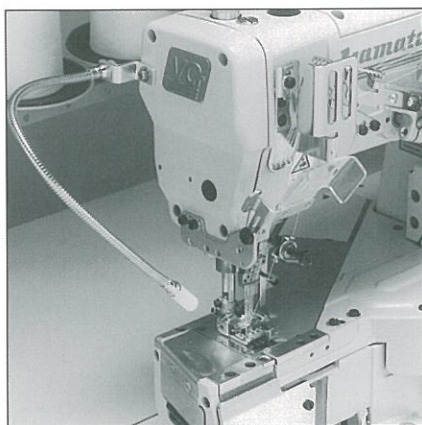

TL1 : Fixed type

The spot light for sewing area is designed for easy threading, adjusting looper timing and so on. It takes small space and enough brightness without any heat at all and can be easily installed to Overlock / Safety stitch, interlock stitch, Flat-Seamer and other sewing machines. The lamp is a special LED and the brightness of it can be adjusted by rotating thumbscrew and has a longer life than normal lamp. And the lamp is turned ON / OFF by switch when you need.

TL2 : Flexible type [Can be adjusted its position freely.]

Power source : From 100V. to 240V. (TL1-TL2)
In the area supplied 380V, it should be used with "N" phase and operate with 220V.

 *Specification and appearance on this catalog are subject to change without notice. For correct handing of products described on this catalog, please read the instructions before operation.
